OUR COMMITMENT TO WINE PRESERVATION

The Coravin Wine Preservation system was developed by Greg Lambrecht, the head of a medical invention company who loved very fine wine. His wife fell pregnant & being an ultrahigh achiever he had to be careful regarding his wine consumption. After considering his wife would no longer share a bottle of wine with him the Coravin was developed! Put simply, it pumps argon, an air inert gas into the bottle & being heavier than air than shields the wine away from oxygen for well over 12 months giving you the PERFECT glass of a rare or premium wine that you would not normally drink. **C denotes wines stored by Coravin System**

See Jancis Robinson <https://www.jancisrobinson.com/articles/coravin-the-pros-and-cons> for further reading

Le Verre de Wine Preservation system is a system designed using a vacuum to remove oxygen from the bottle to prevent oxidization of still & sparkling wines. The system helps keep wines in perfect condition for up to 21 days, the wines that we protect are sold on a high turnover basis allowing you to be enjoying a magnificent glass every time. **L denotes wines stored by Le Verre De Wine System**
